

Dear FFC Representative,

K-LOVE is a radio station, which I play in my car for my family and me. My children enjoy the music and I am not concern with material that could be offensive or not age appropriate.

If this radio station would not be accessible by FM radio is would be discouraging to my whole family and those individuals that depend on the support of this radio station. Individuals that turn to it for an encouraging word at a low point in their lives or when there is no other place to turn.

The station's support of local rescue missions, through fundraiser, is indispensable to serve my local community and those all around our great country.

Thank you for your consideration,

Carlos A. Hurtado
